VLC5052

New Vapormatic Reversing Camera Kits

Our new reversing camera system comes packed with great features. A fully integrated processor means no more additional boxes and you can now add up to 3 cameras for additional visibility.

- 5" TFT LCD colour screen – includes mounting bracket
- 1 x ultra-low light colour camera – includes mounting bracket
- Up to three camera inputs
- 20m cable with waterproof connectors
- 12 / 24 Volt option
- Infra red LED's (18) for night time use

Camera(s):

The cameras come with an IP67 'Ingress Protection' rating, ideal for harsh farm conditions. They also feature a 300,000 pixel image sensor with a wide field of view (110 degrees) and are capable of working in low light conditions thanks to a bank of 18 infra-red LED's.

Monitor:

Easy to use buttons for quick switching between cameras, reverse image facility and a trigger switch allows extra versatility. For example, the trigger could be positioned for when the vehicle is put into reverse to switch to a different camera. A sun visor and remote control are included.

Also available:

VLC5050

VLC5050 – Dual Reversing Camera Kit

Including the same great features as **VLC5052**, the dual reversing camera kit also includes an extra ultra low light camera with mounting bracket and an additional 5m cable with waterproof connectors.

VLC5030 – 20m Extension Cable

Our new 20 metre extension cable has been newly improved to provide a greater level of insulation and comes complete with waterproof connectors.

VLC5030

VLC5051 – Colour Camera

This new and improved camera is available individually, as well as in our new camera kits and comes complete with an IP67 'Ingress Protection' rating, ideal for harsh farm conditions. They also feature a 300,000 pixel image sensor with a wide field of view (110 degrees) and are capable of working in low light conditions thanks to a bank of 18 infra-red LED's.
