Bulletin	UK	Export	Vap	Issued
1172	YES	YES	YES	29 <sup>th</sup> March 2010

The new Vapormatic John Deere replacement parts catalogue builds on the success of the previous edition. The result of extensive market research and machine analysis by Vapormatic, in conjunction with specialists in the field, this new 656 page catalogue features:

- Over 42,000 applications, an increase of over 50%
- Over 1,250 parts, an increase of over 25%
- The old 30 through to the new 30 series

In response to customer demand the new catalogue sees the introduction of many new products including:

- Heavy duty halfshaft bearings
- Pick up hitch kits

The new "Service" section contains a comprehensive range of filters for 30 series tractors to support these popular machines.

Recognising the increasing market opportunities for transmission repairs, we have added a complete new "PowerQuad" section including friction disks, seals and other wearing parts.

There are three front cover language options, English, French and Spanish, along with improved translation tables and technical diagrams for every section. The internal details are identical for all three catalogues.

Part no. **PEF2851** - English cover

Part no. **PEF2852** - French cover

Part no. **PEF2853** - Spanish cover

All Vapormatic quality replacement parts carry an industry leading **12 month parts and labour warranty**.
