Vapormatic Immobiliser Protects Lincolnshire Police Tractor

Helping to raise awareness of the growing rate of farm machinery theft, Lincolnshire Police have been using a John Deere 6630, complete with Police livery and blue flashing lights!

Needing to make sure their own tractor was protected, Lincolnshire Police asked Vapormatic to install their award winning, Thatcham approved Immobiliser.

Vapormatic's immobiliser has been purposefully developed for the agricultural machinery market. It uses a keypad system which allows drivers to leave the keys in the ignition and walk away with the confidence that it cannot be started without the immobiliser PIN code. The driver simply enters a four to six digit code to allow them to start the vehicle as normal.

As the system has Thatcham P2 approval, insurance discounts are available. When installed to a tractor with Cesar registration the security level achieves a 3 star rating and discounts can be as much as 20%.

Peter Brennan, Managing Director of Vapormatic comments, "Lincolnshire Police are to be congratulated for highlighting the seriousness and scale of tractor theft in the UK. Their efforts, addresses the concerns of farmers around farm security. The threat of theft affects every farmer in the land and prevention of machinery theft, rather than recovery, is key. Vapormatic is delighted that its Thatcham approved Immobiliser is playing an important part in helping farmers protect their machinery".

Product Specifications – Vehicle Immobiliser Part No. VLC5501

- Uses state of art DD2+ technology
- Wireless keypad operation for maximum protection, even when the keys are left in the ignition
- Multiple driver access. The keypad can accept up to 6 unique PIN (personal identification number) codes (5 user codes and 1 master code) of 4 to 6 digits in length
- The keypad has LED status indicators and backlighting to ensure clear visibility even in the dark
- A keypad override disc is provided for total control and emergency mobilisation. The disc deactivates the immobiliser remotely from up to 5 meters from the blockers
- 2 separate wireless blockers for double the protection
- 2 years warranty (1 year standard and a free 2nd year when registered on our [Warranty Registration page](#))
- Thatcham Approved
