

Your regular update on all things Vapormatic

May 2008

Dear Subscriber,

Welcome to the latest edition of the Vapormatic newsletter. In this issue we will look back at the recent 'Stockist of the Year' awards, examine the need for fire extinguisher maintenance, discover the secrets behind our top quality paint range and marvel in the encyclopedic knowledge of Roger Clark.

Remember; if you have anything you would like to contribute towards the next edition please [contact us](#).

STOCKIST OF THE YEAR

WINNERS ANNOUNCED

The highly coveted and much anticipated awards have now been presented for the 2007 financial year. The awards mark exceptional performance amongst the network of UK Vapormatic Stockists that have demonstrated excellence in all areas of their business including sales growth and presentation, professionalism, quality of service, support and commitment to the Vapormatic brand. The selection process has been more difficult than ever this year, due to the high standard achieved by the Stockist network as Nick Lee, Sales Manager, explains; "It's not just about sales, but rather all aspects of a Stockist's activities. Investment into retail areas, local trade account development, loyalty, commitment, technical support and the presence of Vapormatic within the store are just a few of the contributing factors".

FIGHT THE FIRE

FIRE EXTINGUISHERS

The risk of fire is always present in the farmyard, whether from chemicals, fuel, oils or straw, hay and other organic materials. When was the last time you checked to make sure your extinguishers were in full working order? We take a look at extinguisher maintenance and find out how the classification system works...

ALL OUR COLOURS ARE GREEN

VAPORMATIC TINNED PAINT

Not only is our tinned paint the first choice for discerning tractor restorers and professional engineers alike, it is also not classified as being harmful to the environment.

Vapormatic supplies more than 110 machine colours in 1ltr and 5ltr tins and also includes the full package of thinners and primers. [Download our FREE paint guide](#) to find out more about our range and how you can make the most of our products.

ROGER'S TOP TIPS!

OUR WALKING ENCYCLOPEDIA SHARES HIS KNOWLEDGE

Resident tractor parts expert, Roger Clark, has worked for Vapormatic for almost 17 years and has over 44 years experience in the agricultural industry. His mind is full to bursting with information, so in our new feature he will share just a small amount of his life long learning with us.

For his first instalment Roger looks into one of the most frequently asked questions; David Brown wheel bearings and stub axles and calls for your own tips and advice.
