## New Grassland Equipment Range

The **Vapormatic Grassland Equipment range**, suitable for Agricultural mower and tedder applications is now available. This range covers the majority of fast moving wear parts for mower or grass turning machinery.

Parts are available for 14 major original equipment manufacturers (OEM's), covering critical parts for both mowers and grass turning equipment including: blades, blade carriers, blade bolts, belts, tines, tine retainers, tine springs and gates. This extensive range has been formulated to ensure the availability of essential wearing parts when you need them most. Grassland equipment is prone to wear and tear and in need of regular maintenance, sourcing wear parts at affordable prices, without compromising on quality can be challenging.

The range contains over 320 parts, covering machines from the 1970's through to present day. The array of products available caters for mowers with 8 – 48 blades and turning equipment from 16 – 60 tines.

### Range Features

**Vapormatic** expert technicians have carefully compiled the **Grasslands Equipment Range** and added it to the website for your viewing. The range has been compiled in an easy to understand format, with user-friendly features designed to both simplify and speed up replacement parts sourcing. Parts can be searched via the OEM part number, OE manufacturer, machine type and dimensions. To ensure the correct selection and application is achieved, technical information is provided to allow the user to easily identify the required product.

**Vapormatic** Replacement parts suitable for  
**GRASSLAND EQUIPMENT**
