New Material Handlers Catalogue

Our new range of **quality replacement parts suitable for Material Handlers**, is now available. Featuring parts for the 6 major original equipment manufactures, this new range available from **Vapormatic** is one of the most comprehensive in the market place at present. The range contains over 565 individual parts covering machines from both the agricultural and industrial sectors. Over 200 new parts have been introduced to ensure that no matter what the requirement; **Vapormatic** can help reduce customers down time for these important machines.

New Product

Parts are available for the following machine areas: Service, Engine, Front Axle 4WD, Brakes, Rear axle, Hydraulics, Linkage, Steering, Panels, Cab and Air conditioning. This range has been formulated to ensure the availability of essential wearing parts when you need them most. Materials handlers are prone to wear and tear and in need of regular maintenance, due to their high usage on farms and construction sites. Therefore, to maintain the efficiency and life span of such machinery, it is advisable to ensure moving parts are greased regularly, engine oil and filters are changed at the correct service intervals and carriage pins and bushes are changed when worn.

Range Features

Vapormatic expert technicians have carefully compiled the **Material Handlers Range** in an easy to understand format, with user-friendly features designed to both simplify and speed up replacement parts sourcing. Parts can be searched via OEM manufacturer, machine area, series and original part number. To ensure the correct selection and application is achieved, technical information is provided to allow the user to easily identify the required product.

Vapormatic quality replacement parts carry a full **12 month parts and labour warranty**, which, whilst subject to normal conditions of use, correct application and fitting, remains unique in the industry.

This major benefit enables customers to Buy and use **Vapormatic** parts with confidence.
