**VZZ9046 - Lighting Shelf**

The Vapormatic LED light bar is perfect for merchandising work lighting and beacons in store; fitting directly on to a Vapormatic wall bay or gondola.

The light bar can hold 6 lights and has the added bonus of a 12V auxiliary socket to demonstrate beacons with an aux type plug connection. The central channel cut out allows lights to be positioned exactly as required.

Lights are activated by illuminated numbered switches on the front of the display.

The light bar is simple to wire up and can be powered from any 12V power source.
