NEW parts added to the Steering Joints range for ILS™ John Deere application

Take me straight to the parts

Due to popular demand Vapormatic is pleased to expand the range the front axle parts offered for John Deere applications with Independent Link Suspension. Using advanced technology with proven quality, these parts can be trusted for heavy equipment usage. We are committed to providing economical and comprehensive solutions for products later in the lifecycle.

The mechanical front-wheel drive element allows up to 40% of the tractor power to go through the front ILS axle. The increased contact of the front tyres on the ground allows for improved suspension and a smoother ride is experienced in the field. As well as the increased comfort, the minimum oil levels used leads to greater efficiency overall.

Sourced from specialist manufacturers, this range of parts are manufactured to OE specifications and is backed up by our market leading Vapormatic 12 months parts and labour warranty.

John Deere Applications for ALL parts in the range:

8120, 8220, 8320, 8420 & 8520
8130, 8230, 8330, 8430 & 8530

8225R, 8235R, 8245R, 8260R, 8270R, 8285R, 8295R,
8310R, 8320R, 8335R, 8345R, 8360R, 8370R & 8400R

8R 230, 8R 250, 8R 280, 8R 310, 8R 340, 8R 370 & 8R 410
