## NEW Vapormatic Belts for S, T, W & WTS Series Combines

Vapormatic have extended the range of combine belts, to include applications for 9000, WTS, CTS, S, T and W series combines.

Sourced from a specialist belt manufacturer, the introduction over 100 belts not only provides a comprehensive range for all combine series but an economic solution for many older machines.

Manufactured to OE specifications, these corded belts are designed to withstand compression and stretching, especially where the stresses of torque are experienced most. To avoid loss of performance or slippage, these belts are made from high quality, oil resistant, anti-static rubber, making them a good choice for tough environments and harvesting conditions.

For a full list of parts and cross references, please visit [www.vapormatic.co.uk](http://www.vapormatic.co.uk)

To view belts for Z series combines, please [click here \(Bulletin 1433\)](#)
