NEW Slim-body Quick Disconnect Grease Coupler

Vapormatic has introduced a NEW slim-body, Quick Disconnect Grease Coupler into the existing lubrication equipment service range for fast, dependable and hassle-free greasing.

The new jaw-less coupler features a slim-line nozzle for easier access to hard-to-reach greasing points on machinery. Importantly, its 6-point ball bearing contact system ensures fast and positive location onto grease fittings.

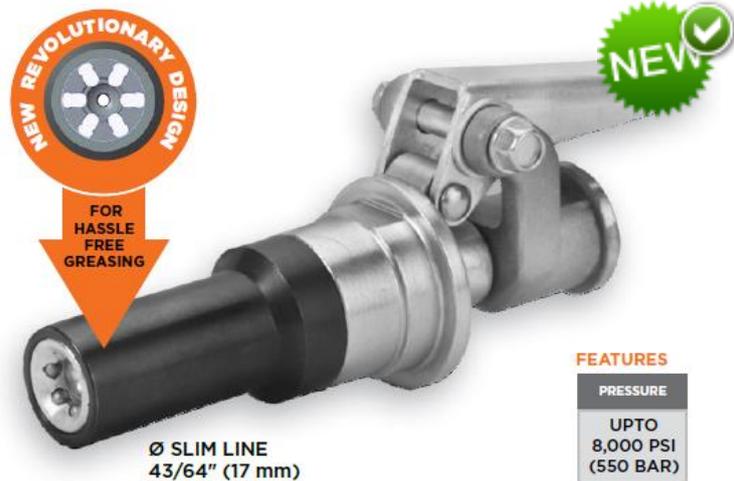

New VAP Part Numbers:

M10 Metric Thread Grease Coupler – [VLB1072](#)

1/8" BSPT Imperial Thread Grease Coupler - [VLB1077](#)

Features:

- **Leak Free / high pressure seal** (For leak free tight fitting, even under high pressure up to 8000 PSI /550 BAR)
- **Robust construction** (Hardened rollers, heat treated ball bearings & body)
- **Fast engagement / release** (thumb lever for quick and convenient engagement/ disengagement even under high pressure)
- **Hands-free operation** (tight fitting means no need to hold the coupler during greasing, as required with conventional couplers)
- **Improved reliability.** New 6 point hardened ball bearing contact system eliminates risk of deformation and damage associated with coupler jaws
- **Fitting compatibility.** Contact system is suitable for use with a wider range of SAE and Metric grease nipple / fitting profiles

	<p>NEW Slim Body Coupler</p> <p>The New Slim Body Grease Coupler gives engagement at 6 points. Hardened ball points of contact do not deform for longer product lifetime. Slim design give easier access to tight areas. Easy to service/repair.</p>
	<p>Alternative Quick Couplers</p> <p>Provide engagement around flat surfaces. Upon repeated use, at varying pressures jaws tend to deform, loosening grip over the fitting. Difficult to service/repair.</p>

All Vapormatic quality replacement parts carry an industry leading **12 month parts and labour warranty**. For further information on specific items please visit www.vapormatic.com
