NEW Range Vapormatic Safety Glasses

Vapormatic's new range of stylish safety glasses are designed to protect eyes from debris, dirt and dust ingress. Suited to a range of applications and industries, models are available to help reduce glare, reflections and eye-fatigue. When working outside, all safety glasses are UV400-rated to help prevent eye exposure against both UVA and UVB sun radiation.

Key Features:

- UV400-rated lens provides 100% ultraviolet light protection
- Impact and scratch-resistant polycarbonate lens
- Robust and durable frame
- CE approved. EN166 EN170 ANSI Z87+ compliant
- All safety glasses are individually wrapped and supplied in retail-ready, hang-tag friendly packaging.

VLA1674 Silver Mirror Tint Safety Glasses

Silver mirror tint safety glasses providing lightweight, wrap-around protection without sacrificing comfort or style.

- UV400 rated lens provides 100% ultraviolet light protection
- Impact and scratch-resistant polycarbonate lens
- Padded soft temple ends to reduce pressure points for a great fit and added all day long comfort

VLA1675 Smoke Grey Tint Safety Glasses

Smoke grey tint safety glasses providing lightweight, wrap-around protection without sacrificing comfort or style.

- UV400 rated lens provides 100% ultraviolet light protection.
- Impact and scratch-resistant polycarbonate lens
- Padded soft temple ends to reduce pressure points for a great fit and added all day long comfort
